DETAILED ACTION

1. Amendment filed 09/22/2010 has been received and considered.
2. Claims 1-6, 10-12, 16-22 and 40-51 are pending.

5

Claim Objections

3. The objection to claims 2, 19 and 41-43 has been withdrawn based on the filed amendment.

.

Claim Rejections - 35 USC § 101

10

4. The rejection of claims 40-43 and 51 has been withdrawn based on the filed amendment.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

15

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

20

6. Claims 1-6, 10-12, 16-22 and 40-51 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Each independent claim recites the following (or similar) limitation, "receiving a copy command associated with

25

the copy selection, the copy command including a password associated with a user”.

Nowhere in the specification is it described that a user password is included with a copy command. The specification generally discusses the use of passwords as *a priori*

knowledge but does not specifically disclose the password being included with the copy

5 command. The specification does not describe any information being included with a copy command. Therefore, the claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the art that the inventors had possession of the claimed invention.

10

Response to Arguments

7. Applicant's arguments with respect to claims 1-6, 16, 20-22 and 40-51 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

15

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Diamond et al. teaches the use of a password to protect a clipboard.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

20

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
